Listing of Claims:

CLAIMS

1. (currently amended) A method of administering lottery wagering on a phased competition, comprising:
 - determining final participants from the conclusion of a pre-qualifying event of a phased competition;
 - accepting a wager from a wagerer, the wager corresponding to wagering data D_W including one or more picked numbers;
 - assigning random numbers to the final participants;
 - assembling concluding data D_C for final participants after conclusion of a final event of a phased competition;
 - determining at least one winner from the final participants of the final event based on the concluding data D_C ;
 - correlating the concluding data D_C of a winner to the random number assigned to the winner;
 - determining winning lottery data D_L based on the correlating step such that there is an equal probability of any of the random numbers being included in D_L ; and
 - awarding a prize to a wagerer whose wagering data corresponds to the winning lottery data, the random numbers being assigned to the final participants after accepting the wager so

that the wagerer does not know which participant corresponds to the one or more picked numbers when they are picked.

2. (cancelled)
3. (cancelled)
4. (original) The method of claim 1 wherein the step of assembling concluding data D_C for final participants comprises assembling concluding ranking data of final participants of a final event.
5. (original) The method of claim 4 wherein the step of assembling comprises at least one function selected from the group consisting of collecting, collating, correlating, and mathematically manipulating.
6. (cancelled)
7. (cancelled)
8. (previously presented) The method of claim 1 wherein the step of determining at least one winner of the final event comprises determining n winners of the final event.
9. (cancelled)
10. (cancelled)
11. (cancelled)
12. (cancelled)
13. (previously presented) The method of claim 1 further comprising the step of comparing wagering data D_W to winning lottery data D_L .
14. (cancelled)

Application No.: 10/606,100
Amendment Dated: July 9, 2007
Office Action dated February 27, 2006
Attorney Docket No.: 2233.001

15. (currently amended) The method of claim 13 further comprising the step of entering the wagering data D_W into a second lottery phase based upon the outcome of the comparing step.

16. (currently amended) The method of claim 15 further comprising the step of randomly selecting the wagering data D_W of the second lottery phase.

17. (cancelled)

18. (cancelled)

19. (previously presented) The method of claim 1 further comprising the step of trading wagering date D_W prior to prior to conclusion of the final event.

20. (cancelled)

21. (cancelled)

22. (cancelled)

23. (cancelled)

24. (cancelled)

25. (cancelled)

26. (cancelled)

27. (cancelled)

28. (previously presented) A method of operating a lottery wagering system, comprising:

accepting from a wagerer a wager, the wager including a group of picked numbers, the picked numbers being a subset of a set of available lottery numbers;

randomly associating with participants in a competition the numbers in the set of available lottery numbers after accepting the wager;

Application No.: 10/606,100
Amendment Dated: July 9, 2007
Office Action dated February 27, 2006
Attorney Docket No.: 2233.001

after the competition is conducted, assigning as winning lottery numbers the random numbers from the set of lottery numbers associated with the winners of the competition;

awarding a prize to a wagerer whose picked numbers correspond to the winning lottery numbers, the winning lottery numbers being determined by the outcome of the competition, and the wagerer not knowing at the time his numbers are picked which numbers will be associated with which participants.

29. (previously presented) The method of claim 28 in which the competition is a sporting event.

30. (previously presented) The method of claim 28 in which the competition is an entertainment award competition.

31. (previously presented) The method of claim 28 in which:
randomly assigning to participants in a competition the numbers in the set of lottery numbers includes randomly assigning the numbers in the set of lottery numbers a car number corresponding to a car in a race; and

assigning as winning lottery numbers the random numbers assigned from the set of lottery numbers to the winners of the competition includes assigning as winning lottery numbers the random numbers assigned to the winners of the race.

32. (previously presented) The method of claim 28 in which:
randomly assigning to participants in a competition the numbers in the set of lottery numbers includes randomly assigning the numbers in the set of lottery numbers an individual in a tournament; and

Application No.: 10/606,100
Amendment Dated: July 9, 2007
Office Action dated February 27, 2006
Attorney Docket No.: 2233.001

assigning as winning lottery numbers the random numbers assigned from the set of lottery numbers to the winners of the sporting event includes assigning as winning lottery numbers the random numbers assigned to the winners of the tournament.

33. (previously presented) The method of claim 28 in which accepting from a wagerer a wager on the lottery accepting a wager including a group of picked numbers selected by a computer program or a group of picked numbers selected by a wagerer.

34. (previously presented) The method of claim 28 in which accepting from a wagerer a wager includes accepting the wager over a communication link.

35. (previously presented) The method of claim 34 in which the communication link is selected from the group consisting of tickets, landline telephone, radio frequency, computer network, Internet, and World Wide Web.

36. (previously presented) Computer readable media including computer instructions for carrying out the steps of claim 28.

37. (previously presented) A lottery system, comprising:

a computer processing unit;

a computer memory storing computer instructions for carrying out the steps of claim 28.

38. (previously presented) The method of claim 13 in which entering wagering data D_W into a second lottery phase based upon the outcome of the comparing step includes entering wagering data into a second lottery phase having the lottery results determined by the concluding data D_C .
